

Ice Cream is the Best!

Emma T.

People may think that ice cream is another bad snack that is not good for you, well I think that ice cream is the best snack. Ice cream is the best snack because it is delicious, there are so many different flavors, and most of all, there are so many different toppings!!!!!!

Ice cream is delicious. I realize that Ice cream is delicious because it is sweet and tasty and makes you happy. Another example is when it is really hot, it can cool you down. This reminds me of a time when I went to the beach and I was really hot. My parents asked me do you want some ice cream I said sure. when I finally got some ice cream I felt so much better and I cooled down a lot. Also, if your thinking it is way too sweet, well that's okay because you only need to have it once in a while. Ice cream is the best because it is delicious

My second reason why I love ice cream is because it has so many different flavors. You can get flavors like chocolate, vanilla, strawberry, birthday cake, cookies and cream, and so much more. Another reason is that when you've been eating the same flavor a lot you can get a new one. While

I'm saying this, it reminds me of a time when I got really bored of one flavor of ice cream and my mom introduced me to a new one. I liked that flavor a lot and it made me want to try different flavors. Ice cream is the best because it has so many different flavors.

The last reason why ice cream is the best is that they are so many different toppings. There are toppings like sprinkles, chocolate chips cookie doe bits and much much more. If there was only one kind of topping you could put on ice cream, it would be boring. So you can change the topping whenever you want. One time it can be Oreos, at another time M&Ms. Sometimes people ask why ice cream has so many toppings? And say there are already enough. Well, a good reason is that if you have braces like me or have a dentist that only lets you have some types of candy. There are many different things that you can put on ice cream. Ice cream is the best because it has so many different toppings.

Now, how do you think Ice cream is? Do like it more after you have read this or do you still think ice cream is just a normal snack? Ice cream is the best because it is delicious, it has so many different flavors, and it has so many different toppings.

The End
